*\*Note: Monthly Budget amounts are based on historical trends for years 2009-2011.*

*General Note: This report is based on the month that the taxes were received by the City, noting that there is a lag between when Nevada retail purchases are made and when the State forwards taxes to the City.*

*General Note: A large fluctuation exists in the amount of taxes received for different months because businesses forward their sales taxes to the State monthly, quarterly, semi-annually or annually, based on the amount of sales made by each business; with sales taxes peaking during March, June, September & December*

**Summary: Compared to 2011 Actual Receipts, 2012 Actual Receipts are down \$2,094.44 or .26%  
Compared to year-to-date budget estimates, receipts are down \$26,046.78 or 1.71%**
