Approval of Minutes: None

Old Business:

There was no old business to discuss

New Business:

FBO Jody Bryson gave an update on the airport runway project. The project has been going well and they're ahead of the timeline. The asphalt has to be on the ground for at least 30 days before they can stripe. The airport will be closed again for 2 days when they need to do the striping.

Chairman Monte Curtis asked the city if we could have maintenance come out and cut some trees and clean up the area around the Quonset hut. They also asked if we can add to the budget to paint the Quonset Hut. The city will review those requests.

Future projects discussed were a hangar project and the City will speak to Lochner about this project and try and get it added in future CIP.

Miscellaneous: None

The meeting was adjourned at 12:47 p.m.

There was no meeting scheduled.
